CAREER OBJECTIVE

Motivated aspiring Software Engineer with strong programming, problem-solving, and teamwork skills. Proficient in Java and SQL, with experience building web applications. Seeking an opportunity to contribute to impactful software projects while growing as a developer.

EDUCATION

B.Tech, Computer Science Engineering

Sept 2019 - May 2024

JNTU Ananthapuram, Andhra Pradesh

GPA: 65.21%

Diploma (Mechanical Engineering)

July 2015 - Oct 2018

State Board Of Technical Education and Training, Andhra Pradesh

GPA: 64.02%

High School (Class X)

Aug 2014 - March 2015

Board of Secondary Education, Andhra Pradesh

GPA: 8.7%

PROJECTS

InfyCode — Full Stack Developer

Jan 2026 – Apr 2026

Tech Stack: React.js, Node.js, Express.js, Firebase, Socket.io

- Developed a full-stack EdTech platform for students, trainers, and administrators with role-based access control.
- Built interactive learning features including mock tests, live coding sessions, counseling schedules, and course management.
- Implemented secure authentication using JWT, OTP verification, and encrypted password storage.

Quick Commerce Grocery Delivery Platform — Full Stack Developer

Jan 2026 - Feb 2026

Tech Stack: React.js, Java Microservices, MySQL

- Developing a scalable Quick Commerce platform for fast grocery delivery with Admin, User, Delivery Partner, and Marketing modules.
- Designed and implemented role-based systems for order management, rider onboarding, authentication, and promotional campaigns.
- Built responsive frontend interfaces using React.js and integrated microservices-based backend architecture for scalability and maintainability.

VidyaVaidya Foundation — Founder & Full Stack Developer

May 2026 – June 2026

Tech Stack: React.js, Node.js, Express.js, Firebase, Tailwind CSS

- Developed a full-stack NGO platform for donations, volunteer management, and community engagement. Implemented authentication, admin dashboard, and donation management features.
- Utilized AI-assisted development tools to accelerate delivery and improve development efficiency.
- Enhanced performance, mobile responsiveness, and SEO.

Website Clones Collection — Frontend Developer

July 2025 – Aug 2025

Tech Stack: HTML5, CSS3, JavaScript

- Developed responsive website clones inspired by Spotify, iStock, Mobirise, and Ola Cabs.

HRM Portal — Full Stack Developer

Oct 2025 – Dec 2025

Tech Stack: React.js, Node.js, Firebase, JavaScript

- Developed a full-stack EdTech platform for students, trainers, and administrators with role-based access control.
- Built modules for employee onboarding, attendance tracking, leave management, payroll processing, and payslip generation.
- Implemented role-based access control (RBAC) to manage permissions across different organizational roles.

Online Examination System — Full Stack Developer

Sept 2025 - Oct 2025

Tech Stack: Next.js, Node.js, Firebase, Spring Boot, MySQL

- Developed a full-stack Online Examination System with secure student registration and automated result management.
- Migrated the platform to a modern Next.js, Node.js, and Firebase architecture to improve scalability and performance.
- Implemented real-time evaluation, automated scoring, and result storage functionalities.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C, SQL

Frontend: HTML5, CSS3, React.js, Next.js, React Router, Tailwind CSS, Vite

Backend: Node.js, Express.js, Spring Boot, Java Microservices, REST APIs, JDBC, Servlets

Mobile Development: Flutter

Database: MySQL, Firebase

Tools & Platforms: Git, GitHub, Postman, Vercel, Render

Libraries & Integrations: Socket.io, Razorpay, Nodemailer, JWT, Framer Motion

Core Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks, RBAC, Microservices, System Design

SOFT SKILLS

- Problem Solving
- Communication
- Team Collaboration
- Adaptability
- Time Management

ACHIEVEMENTS

- Developed 5+ full-stack web applications using React.js, Node.js, Java, Firebase, and MySQL.
- Built scalable platforms across EdTech, HRM, NGO Management, Online Examination, and Quick Commerce domains.
- Implemented authentication, RBAC, REST APIs, payment gateway integration, and real-time communication features.
- Utilized AI-assisted development tools to accelerate project delivery and improve productivity.
